

I understand the FCC is considering changing rules on ownership of multiple media outlets in a single market. I would like to register my opposition to this move. In the region where I live (Maine), we already suffer a lack of diversity in reporting. Any further loss would be detrimental to the public. Please do not repeal these regulations. To do so would demonstrate as an agency you are sold out to big corporate interests and not serving the best interests of the American people.

Sincerely,  
Stephanie Barrett
